AMSR (Assessing and Managing Suicide Risk) Training (2017)

[Forefront: Innovations in Suicide Prevention](#) offers [AMSR - Assessing & Managing Suicide Risk](#). AMSR is a nationally recognized curriculum, developed by the Suicide Prevention Resource Center that **meets the mandate for training under ESHB 2366 and 2315/1426**. By the end of the 6-hour workshop, AMSR participants will increase their knowledge and skills in:

- Eliciting suicide ideation, behavior, plans and intent;
- Making a clinical judgment of the short and long term risks for suicide; and
- Developing a treatment and services plan that addresses the client's immediate, acute and continuing risk for suicidal behavior.
